Integrating Concur with Your SAP ERP System

iProCon: Better HR

SAP® Recognized Expertise
in Human capital management for the UK

www.iprocon.com

Agenda

- **Until Recently...**
- The New Integration Add-On
- Alternative Options and Outlook

“Financial Connector” for SAP

Required Middleware

- Dell Boomi

Used IDOC technology on the SAP side

No HR Integration

Mixed customer feedback

- Basically did the job
- Cumbersome
- Sometimes unreliable – particularly on the EU data centre
- Limited scope

Agenda

- Until Recently...
- **The New Integration Add-On**
- Alternative Options and Outlook

The new Concur – SAP ERP Integration

The New Integration: Good to Know

API based with one single RFC connection

- Communication is always initiated by SAP on-premise

Quick Wizard-based set-up

- Moderate activation fee includes some consultancy
- Add on needs to be installed and set up in each system

HR data can map any infotype fields plus more

Payment via AP only (for now)

Cost objects set up as connected list in Concur – min 4 levels

- Flexibility in mapping through BADIs

Setting it up

1. Download package from SAP marketplace
 - Activation fee
 - Activate in Concur Web Services
 - Import SSL certificate in SAP (Trust Manager)
 - Wizard in transaction CTE_SETUP
2. Create connection between SAP and Concur
3. Configuration in Concur
 - Activating new integration per group
 - Cost object hierarchy and fields in forms
 - Remember: tax codes in SAP have only two characters
4. Configuration in SAP
 - Wizard driven
 - Transaction CTE_SETUP
 - Mapping, Cost object types, authorisations
 - Possibly BAdI programming

Defining Integration Scope

Transaction
CTE_SETUP:

Integration Activities

Select all required integration activities you want to enable.
Integration activities in use are disabled automatically.

Software Component CTE HCM 100

☒ Employee

Software Component CTE FIN 100

☒ Cost Center
☐ Internal Order
☐ Network
☐ Network Activity
☐ Project WBS Element
☐ Sales Order

☒ Financial Posting

Software Component CTE INV 100

☒ Vendor
☐ Purchase Order

Integration Centre

You can set up and manage the integration from transaction CTE_SETUP

Overview

- Test Mode!
- ▼ Cost Center: Export finished with 2 successful objects.
 - 1234
 - 9000000001
- ▼ Cost Center: 2 object(s) not exported. Can't be used for posting.
 - 1000
 - 1010

New Remove | Filter By: TEXT

- ▲ SAP Cost Objects
 - ▲ iProCon Dev (DEVCLNT100)
 - ▶ Country Template DE (DE01)
 - ▶ iProCon GmbH (1000)
 - ▲ iProCon Model Company UK (IMUK)
 - ▲ Cost Centre (CC)
 - SuccessFactors Consulting (1234)
 - Concur Consulting (9000000001)
 - SAP HCM Consulting (1230)
 - ▶ SAP A.G. (0001)

Setting up the Hierarchy

- Recommended by SAP: min 4 levels
 - System
 - Company Code
 - Cost Object Type
 - Cost Object ID
- Our recommendation: 5 levels
 - Add a code that allows you to restrict choice for each employee
 - This can be filled via BAdI
 - If you don't need it initially: hide it with fixed value
- System and company code usually filled automatically based on employee org assignment

Posting

Feedback loop

- Successful posting sends feedback to Concur

Sets status of report to “paid”

This can be confusing, because:

- it's only posted to the vendor in SAP FI
- If you don't have daily payment runs, employees will expect payment earlier than they'll really get it

User Master data

- Filled from SAP HCM Master data

- Very flexible mapping

Infotype fields (incl. subtype)

Calculated fields

- E.g. line manager
- Coded in SAP standard methods
- Can currently be changed by modification only
- BAdI expected soon

HR Data Mapping

Form Type	Concur Field ID	Concur Field Name	SAP Table Name	SAP Infotype	SAP Subtype	SAP Field Name	SAP Implementation Code
Employee	Active	Active					EE_EVAL_HIRE_TERMINATION_DATE
Employee	CashAdvanceAccountCode	CashAdvanceAccountCode					
Employee	CrnKey	ReimbursementCurrency					EE_WAERS_FROM_PERSA_OR_BUKRS
Employee	CtryCode	CountryofResidence					EE_COUNTRY_FROM_PERSA_OR_BUKRS
Employee	CtrySubCode	State/Province					
Employee	Custom1	Country					
Employee	Custom15	ExemptFromApproval					
Employee	Custom16	AuditGroup					
Employee	Custom17	VendorID	PA0001	0001		PERNR

Employee	ExpenseUser	Is Expense User					EE_ENABLE_AS_EXPENSE_USER

Agenda

- Until Recently...
- The New Integration Add-On
- **Alternative Options and Outlook**

Roadmap for Standard Integration

Early Adopter Programme

- Available now
- Restricted functionality

General Availability

- Q3/2016
- Some added features, but still same 4 integration points

Further Roadmap

- Enhancements based on customer feedback
- SuccessFactors HR Master integration
- Financial integration with S4Hana and SAP Business by Design
- SAP Payroll integration

Integration with SAP FI & Payroll: iProTrip

- **Import Concur SAE into SAP FI-TV Database**
- **Then use SAP standard to use any of these options:**
 - **Post into FI**
 - **Pay using Travelmanagement DME**
 - **Integrate with SAP Payroll for payment, taxation and statutory reporting**
- **Bespoke organisation mapping: high flexibility in customer include**
- **Add-on to change cost assignments between import and postings**

iProTrip: example

Other Options

- File based upload via job and sftp is relatively easy
- For HR data as well as cost centres etc
- Note: Concur not flexible at all regarding upload format

• Master data

- Export SAE (Standard Accounting Export) file
- Custom upload program
- One option: payroll only and posting from there, if once a month is enough
- For payroll, data could be loaded into infotype 2010 as simplest option, but that is quite messy

Posting and Payroll
